Main activities of the Group

The Group of INTER RAO Lietuva (hereinafter - "the Group") is an independent supplier of electricity and, as such, may engage in various forms of electricity trading. Moreover, the Group is also present in electricity generation operations, as it owns a wind farm in Western Lithuania.

The Group is engaged in various forms of electricity trading: the purchase and sale of electricity under bilateral contracts with other electricity suppliers, as well as on the power exchange; supply of electricity to end-users; provision of balancing services for end-users and other wholesalers of electricity; sale and purchase of regulating and balancing electricity for the transmission system operators; cross-border electricity trading.

The Group has permission to import and export electricity to and from Lithuania, it is engaged in the import of electricity from Russia and, to a lesser extent, from Belarus, as well as in export to these countries.

The Group sells all of the electricity it cross-border delivers from the third countries to the Lithuanian internal market on the power exchange since, in accordance with respective regulations, all electricity cross-border delivered to the Lithuanian internal electricity market has to be sold on the power exchange. Then the Group buys the electricity on the power exchange in a volume corresponding to its contractual obligations with clients. Sale and purchase orders are submitted for the same prices and trades are executed at the market price. Some portion of electricity is also sold through Nord Pool AS in Lithuania to other market participants. Trades on the power exchange are executed at the market price.

The price of electricity sold under bilateral contacts is the market price, adjusted for variances depending on the electricity trading or consumption pattern of the customer and contractual arrangements (e.g., fixed on annual or monthly basis or agreed in daily delivery schedules).

Apart from importing electricity, the Group also purchases the electricity from other wholesalers of electricity in Lithuania and Latvia under bilateral contracts based on various pricing arrangements, as well as on Nord Pool AS in Lithuania, Latvia and Estonia.

The Group is also present in the electricity trading market in Poland, where it started its operations in 2014 and is involved in buying and selling electricity on the Polish Power Exchange.

II. Financial information

Revenues

The total consolidated Group's sales revenue in 2015 was equal to EUR 186.7 million, a 11.25 per cent less than in 2014. Total revenue declined due to lower amount of electricity traded in all Baltic countries, which was facilitated by relatively low electricity prices in the Nordpool system as well as risk persisting due to the uncertainties associated with possible technical limitation of interconnection links.

The total consolidated Group's sales decreased by 11.25 per cent in 2015, compared to Group's sales in 2014. Decrease in cost of sales was significantly higher than decrease in sales and amounted to 16.70 per cent, compared to 2014. Such a decrease in costs of sales was mainly due to the changes in trading structure

and lower electricity prices in the markets. Therefore, despite the decrease in sales, the Group's gross profitability increased and equaled to 15.86 per cent in the accounting period, if compared to 10.35 per cent in 2014. Group's operating profit margin increased to 12.21 per cent in accounting period from the 7.15 per cent in 2014. During the period of 2015, the Company and the Group delivered electricity to all of its clients and fulfilled all of its contractual obligations of electricity sales at prices, agreed upon in the contracts.

Company's gross profit margin in 2015 accounts to 15.24 per cent, compared to 9.30 per cent in 2014. Operating profit margin of the Company increased from the 6.95 per cent in 2014 to 12.25 per cent in 2015.

The increase in Groups profitability was also attributable to the changes in trading structure and risk management policies, the Group undertook to cope with uncertainties and risks arising from the technical limitations of interconnection links.

Group's and Company's EBITDA for 2015 was EUR 25.3 million and EUR 19.5 million respectively. Group's EBITDA profitability margin increased from 8.45 per cent in January-December of 2014 to 13.55 per cent in accounting period of 2015. In 2015, Group's net profit increased to EUR 18.8 million from the EUR 12.3 million in 2014. As a result, Group's net profit margin during the accounting period was equal to 10.08 per cent, compared to the 5.87 per cent a year ago.
